

6.1.1

Institute Vision and Mission:

VISION

To emerge as an Institution of Excellence to educate, empower students in the fields of Engineering, Management to create solutions that improve the quality of life and sustainability.

MISSION

- To deliver high quality Engineering and Management Education by giving prominence to theoretical, practical, experiential and comprehensive learning-teaching with the help of cutting edge technologies and best in class infrastructure.
- To establish an environment that produce advance knowledge through research and enrich a culture of inquiry, critical thinking, creativity and innovation to address the needs, challenges and issues of the society with best solutions and to ensure its well-being.
- To develop fruitful industry-institution interactive collaborations, curriculum and programs, leading to enhance the competency, leadership and entrepreneurship skills.
- To develop highly professionals through holistic education by focusing on individual growth, discipline, integrity, ethics, compassion, accountability, sustainability and social sensitivity.

Institute Quality Policy:

TAKSHASILA EDUCATIONAL SOCIETY is committed to:

- Provide Quality education in line with changing needs of the society.
- Improve the competency of the Students to be able to face the challenges.
- Continually updating the system for complying with the university norms
- Continually improve the knowledge level, responsiveness and communication
- Skills of the faculty
- Constantly monitor internal processes and work environment to achieving quality in everything we do in accordance with statutory and regulatory requirements.

LMD COLONY, THIMMAPUR, KARIMNAGAR, T.S. 505527, KARIMNAGAR (T.S)

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

VISION

To provide high-quality education in order to produce competent and promising technocrats with cutting-edge knowledge, ethical standards and creative ideas in the field of computer science & engineering to suit the industry requirements.

MISSION

- Provide quality learning experiences to ambitious students through implementing effective classroom procedures, active learning teaching methods, and to make them confident, competent and industry ready engineers.
- Empower the graduates with the fundamentals in design and implementation of computational problems through university curriculum and modern research methodologies in collaboration with industries and reputed institutes.
- Strengthening research and development activities through application development, technical events and certification programs in the core areas of computer science engineering.
- To instill professional behavior, strong ethical values, professional suitability and leadership abilities.

I.M.D. Colony, KARIMNAGAR (T.S)

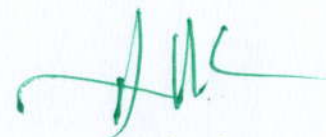

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

Vision

To offer Top-Notch learning in Electrical and Electronics Engineering Education with strong emphasis of providing environment to acquire skills useful for practical applications, innovations and design to meet industrial demands.

Mission

1. To establish itself as a top university department globally.
2. To strengthen the universal scientific and modern education cultures and values.
3. To serve as a hub for research and instruction that produces technologies and knowledge.
4. This established the foundation for influencing the directions of electrical and electronics engineering in the future.
5. Applying in-depth understanding of EEE to generate, expertise and cultivating such expertise for industry and society's use.
6. To harness the potential of human creativity, technology and passion for the advancement of humanity and India.
7. To prepare students for the demands of the electrical engineering sector.
8. To help students become self-sufficient in all areas of life and to serve the country by exposing them to morality.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Vision

To become a centre of excellence in the field of electronics and communications offering higher order of learning and professional academic programs producing globally competitive and ethically strong engineering professionals.

Mission

- Establish an effective and experiential learning environment that creates the passion to acquire knowledge, to do research, to leads towards innovation in the field of Electronics and Communication Engineering, to meet the industry challenges and employability among the students.
- Provide the ethical and value based education by promoting activities addressing the societal needs.
- Enable students to develop skills to solve complex technological problems of current times and also provide a frame work for promoting collaborative and multidisciplinary activities.
- Empower the faculty through various training programs those further results in enhancing learning abilities of the students.

I.M.D. Colony, KARIMNAGAR (T.S)

DEPARTMENT OF CIVIL ENGINEERING

VISION

"To be a globally respected Civil Engineering department committed to excellence in education, research, and service, shaping the future of sustainable infrastructure and urban development."

MISSION

- "To provide a comprehensive education in Civil Engineering that empowers students with the knowledge, skills, and ethical foundation required to address complex societal challenges related to infrastructure and the environment."
- "To engage in impactful research and innovation in the field of Civil Engineering, contributing to the development of sustainable and resilient infrastructure, urban systems, and environmental conservation."
- "To instill a culture of continuous learning, critical thinking, and professional development, preparing students to be leaders and innovators in the field of Civil Engineering."
- "To collaborate with industry, government, and community stakeholders to apply our expertise in Civil Engineering for the betterment of society and the advancement of sustainable development goals."

Principal
Sree Chaitanya Institute of Technological Sciences
I.M.D. Colony, KARIMNAGAR (T.S.)

DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING

VISION

"To be a pioneering department in Artificial Intelligence and Machine Learning, driving innovation, research, and academic excellence to shape the future of intelligent systems and data-driven decision-making."

MISSION

- "To provide a comprehensive education in Artificial Intelligence and Machine Learning, equipping students with the knowledge and skills to leverage data and technology for solving complex problems and creating intelligent systems."
- "To conduct cutting-edge research and development in AI and ML, contributing to advancements in predictive modeling, natural language processing, computer vision, and other key areas, with a focus on ethical and responsible AI."
- "To foster a culture of creativity, collaboration, and interdisciplinary learning within the department, empowering students and faculty to be at the forefront of AI and ML innovation."
- "To engage in partnerships with industry, academia, and public sector organizations to apply AI and ML solutions for addressing societal challenges and facilitating data-driven decision-making."

DEPARTMENT OF HUMANITIES AND SCIENCES

Vision

To foster a holistic education that integrates technical expertise with social responsibility, ethical awareness, and cultural sensitivity.

Mission

To provide a strong foundation in the humanities and sciences, complementing the technical education of engineering students.

DEPARTMENT OF MASTER OF BUSINESS ADMINISTRATION

Vision

To create an surroundings for intellectual energy at the same time as integrating the studies and worldwide management practices aiming at growing globally innovative, aggressive, tech-savvy and transformational leaders having the priority to cater to the needs of the society.

Mission

Our mission is to grow to be a Centre of Excellence for nurturing creativity, encouraging entrepreneurship and improving employability, holistic improvement of students, teaching and exceptional research.
